Comfort Women Issue : Trying to Confirm the Fact

The Fact : Comfort Women ≠ Sex Slave → Comfort Women = Prostitute

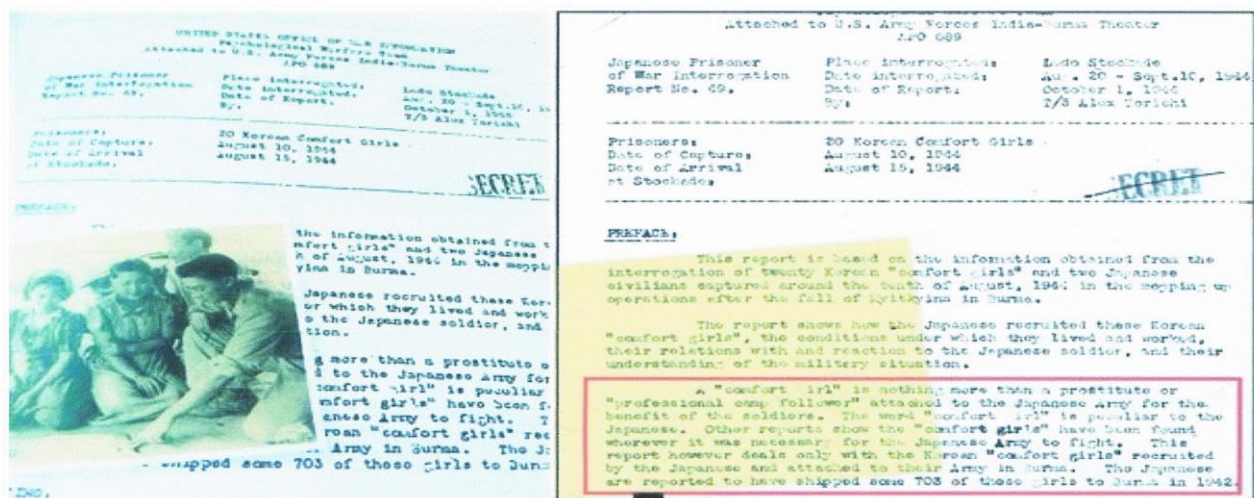

There is an English booklet that Korea "Northeast Asian History Foundation" created. The title is "The Truth of the Japanese Military Comfort Women". In it, a part of the report of US O.W.I. is quoted. The report is based on the interrogation of 20 Korean comfort women who were taken as prisoners in Burma at August 1944. This report is a US Army report No.49 (October 1, 1944) . It is stored in NARA, U.S.A.

The part of the report of US O.W.I. is the left side document that is displayed below (<http://www.sankei>). A photo is inserted on its document. When peeled off the photo, there has been described as "A comfort girl is nothing more than a prostitute". The photo is inserted to hide the truth.

A "comfort girl" is nothing more than a prostitute or "professional camp follower" attached to the Japanese Army for the benefit of the soldiers. The word "comfort girl" is peculiar to the Japanese. Other reports show the "comfort girls" have been found wherever it was necessary for the Japanese Army to fight. This report however deals only with the Korean "comfort girls" recruited by the Japanese and attached to their Army in Burma. The Japanese are reported to have shipped some 703 of these girls to Burma in 1942.
